APRIL-JUNE 2025

The fruits of our flagship program is gradually being seen and felt by us and the entire population of the inhabitants of Bamenda central

During this period, one of our trainee beneficiary who successfully completed the first nine months of our training program signed a contract with Luena Foundation. Kichas Martine, a youth art facilitator through a project proposal titled "The Green Art" received a donation of \$1000 USD from the Luena Foundation to train fifteen youths to become agents of environmental sustainability and climate change activist through visual arts ie. drawing and painting.

It is worth noting that the youth participants in this project constitutes the third batch of disadvantaged youths in our nine months current flagship program that started on the 20/02/2025.

On the 26/06/2025, together with these youths we commemorated the International Day Against Drug Abuse and Illicit Trafficking with discussions centered around the theme 'The Evidence is Clear: Invest in Prevention'. Again participants use artistic mediums such as drawing poems and drama to highlight some preventive measures.

As usual we cannot conclude without expressing our enormous appreciation to our supporters, partners and collaborators for their immense moral, material as well as financial support. May their continuous dedication and commitment to our activities be crown with unending blessings.

For any financial donation, you can support us through: Union Bank of Cameroon Current Account Number 10023-00010-00111 000005-24, Swift Code No. UCMACMCX in favor of Collective Arts Development Association (CADA).

Thank you All...
